MEMORANDUM FOR MR. McCONE

1. After giving you a brief sketch of our activities at [ ] 25X1  
you indicated that I should be prepared to give a similar accounting to  
the Special Group on Thursday afternoon. On my present schedule, I  
will be down at Eglin Air Force Base on Thursday afternoon.

2. I strongly urge that you do not - repeat not - bring up the matter  
at the Special Group. As you know, they are actively searching for a  
place to set up a counter-insurgency school and, unfortunately, they  
might possibly settle on [ ] as a site for this school. In 25X1  
addition to being singularly unequipped to handle such a school at this  
time, any type of activity such as that at [ ] would certainly 25X1

25X1 [ ]  
such as we are presently engaged in, but certainly not a place to run a  
school, that is, a classroom type of school as is presently contemplated.  
Furthermore, the logistics problems are such that we would end up  
with nothing rather than what we presently have.

3. Accordingly, I strongly recommend that you not bring the  
matter up before the Special Group.
